

Friends Center for Children Financial Aid Program

Contributions to Friends Center's financial aid program allow us to offer sliding scale tuition to all of our families in need. During the 2017-2018 school year, these gifts enabled us to help 74 of the 86 children at FCfC. Here are two stories from the many parents who have expressed their gratitude for this financial assistance.

Thank you so much! Words can't describe how grateful I am that my son and I were a part of Friends Center. It was truly a great experience for both of us. We will forever be thankful for the support we received. We both thank you all so very much. I hope other parents can experience the support we received. Thank you for everything! - Jeffica Watts

After a significant reduction in our household income, the continued support of Friends Center had a profound impact on our son and our whole family. Instead of closing their doors to us, Friends Center staff and teachers gave us stability and care in a time of hardship. Their support gave us an opportunity to rebuild our social and financial well-being. Without it, our son would have lost his personal connection to this wonderful and nurturing place, and our family would have been forced to leave this wonderful and nurturing community. We are so grateful for this assistance that we have committed ourselves, now that we are able, to give back what we have been given. Friends Center for Children has earned our lifelong support. - Tim Applebee

The infographic features two vertical text boxes on the left side, overlaid on a photograph of a smiling woman and two children. The first box is blue and white, containing the number '60' in large blue font, followed by the text 'children received financial aid' in smaller blue font. The second box is white with green text, containing the number '14' in large green font, followed by the text 'children received emergency financial aid' in smaller green font. The background photograph shows a woman with blonde hair smiling, with a young boy in a blue hoodie in the foreground and another child partially visible on the right.

Category	Count
Children received financial aid	60
Children received emergency financial aid	14
